ORGANOGRAM OF FACTORY

Inside a spinning factory – our yarns source

Yarn spinning -> continued

Knitting & Dyeing Section

- Man power: 260 people in 3 shifts (including dyeing QC & Supervisor)
- 79 circular knitting machines in full production, which are the latest models
- Different diameters from 28" to 44"
- Knitting capacity 25,000 kg / day
- Products: Jersey Structure, Rib Interlock Structure, Stripe Jersey Structure, Stripe Rib Structure, Terry or Fleece Structure

Our fabric dyeing & finishing

Our fabrics dyeing & finishing

Cutting Section

- Men power: 220 people
- Machineries: 18 sets + metal hand-gloves + fabric check machines, etc.
- Total Capacity: 1,40,000 pcs/ per day (average)
- Work Method : After receiving the finished fabrics, each and every batch/roll is checked for color & quality confirmations. After the manual cutting the parts are then numbered in order to avoid any differences in shading.
